Performance Analysis Report

A school student analysis dashboard is a tool that provides a visual representation of student data to teachers, administrators, and parents. It allows them to quickly identify student performance trends, strengths and weaknesses, and make informed decisions about student interventions and support.

Benefits to the End User

- ✓ Student Information: A student analysis dashboard provides information about each student, such as their name, grade level, and demographic information. This can help educators and Management to better understand each student's unique needs and challenges
- ✓ Attendance Data: A student analysis dashboard Give Analysis on a student's attendance, such as the number of days they were absent, the number of days they were tardy, and the number of days they were present.
- ✓ Grading and Assessment Data: This dashboard includes Analysis on a student's grades and assessment scores. This can help educators
- ✓ & Management to identify areas where students are struggling and make targeted interventions to support their academic progress.
